I'm writing this letter today
to be listened to.

I've had my cell phone
taken from me by the Social
worker Alicia after only an
hour or two of it being in
my possession. The social
worker took it from me with
no explanation! She began
to look around my room for
more and what else and left
the room. I waited for her to
go down the hall, I watched
carefully so I could follow her
without her knowing it. She
went into the office of the Chief
Administrator Billy Joe Bob Thompson.
I peeked in to see through the
window outside the office in the hall
and found Alicia sitting in a
chair across from the administrator's
desk holding up my phone in its
gift box & showed it around as she
told her story of it & me a some
other things as I listened in stealthily
I saw Alicia & it reminded me of a dog

with a "Kill" in its Mouth
and going to its Master for Prayers.

Inside of me I felt things that
were complex; and my thoughts
were that if I pursued my Rights
that the facility's Reprosecutions
on me would be deeper and
that I had better go for help
with it. I want my cell
phone back! I went to my
phone and called the
Center for Independence &
Left a message. On it I said,
"I've Been Busted!" and my
call for help with this matter
has arrived and is to be brought
further forth with this letters
Please & thank you

I've a house and car. I'd like to
