Dear Commissioners,

My name is Cassaundra, and I am a member of Put People First! PA, a statewide, grassroots organization based in Pennsylvania.

I am emailing you with grave concern about the treatment and disappearance of David Italiano. The Huntingdon County Area Agency on Aging (AAA) has assumed guardianship of David against his wishes and they will not disclose his whereabouts, confirm his safety, or allow him to have contact with his chosen advocate, Roads to Freedom Center for Independent Living, in accordance with Pennsylvania's guardianship statutes and in accordance with David's civil liberties under the Olmstead Ruling.

I stand with David and am demanding that public officials:

- (1) Compel Huntingdon County AAA to disclose David Italiano's location;
- (2) Allow David Italiano to communicate freely with whoever he chooses;
- (3) Force nursing home staff to return David's private phone;
- (4) Compel agencies to use supported decision making with all of their disabled clients, including those under guardianship.

Thank you,  
Cassaundra Hill
